**HOLDINGS OF EACH COMPONENT BY CATEGORY OF RECORDS**

**EXPLANATION OF CATEGORIES OF RECORDS STORED AT THE ARCHIVES & RECORDS CENTER**

**INACTIVE OFFICE RECORDS**

These are records created by all components of the Agency in the normal course of their operations. The records are retired to the Archives and Records Center when they become inactive and in accordance with approved Records Control Schedules.

**VITAL RECORDS**

These are records essential to the continuity of Agency operations during an emergency. This is to provide for operations at the relocation site and to back up certain daily operations at Headquarters. Since these are copies and duplicates of current active records in the offices, these Vital Records are stored and totaled separately from Archival and Inactive Office Records Holdings.

**SUPPLEMENTAL DISTRIBUTION COPIES OF REPORTS & MAPS**

This is the reserve stock of Agency produced finished intelligence reports and maps held at the Archives and Records Center for immediate release to Agency Components, other USIB Agencies and Foreign Governments as they are needed to supplement the initial distribution.

**ARCHIVAL RECORDS**

These are records of enduring value to the Agency as a whole and document the mission and function of the Agency. They are normally the records identified as Permanent in the Records Control Schedules and have been separated from the other inactive office records with the assistance of the component Records Management Office.
